Summary

B.Tech Computer Science graduate with strong academic performance (CGPA: 9.08) and hands-on experience in modern web development using React.js and Laravel. Currently interning as a front-end developer, contributing to production-level features including secure API integrations and dynamic UI components. Eager to join a product-focused team to build scalable, user-centric web applications.

Professional Experience

Front-End Developer Intern   March 2025 – Present

Vivenns Global Private Limited   *Hyderabad*

– Developed a responsive React.js landing page for WhatsApp API integration and user onboarding.
– Enhanced UI/UX with dynamic form duplication, animations, and responsive layout improvements.
– Integrated CAPTCHA protection and secured AJAX endpoints using Laravel middleware.
– Participated in code reviews and collaborated with backend engineers to align frontend logic with API behavior.

Projects

LDrive – File Management Web App | *React 19, Next.js 15, TypeScript, Appwrite* | ⓞ ↗

– Built a modern file manager with signup/login, uploads, sharing, file sorting, analytics by type and user dashboard.

– Implemented file view, rename, delete, download, and global search with Appwrite Storage.

VVIT Connect – Alumni Networking Platform | *React.js, Node.js, Express, MongoDB* | ⓞ ↗

– Built a full-stack platform for alumni to network, post opportunities, and mentor students.
– Enabled real-time announcements and media sharing via Cloudinary integration.

L's Buzz – Real-time Chat App | *React.js, Node.js, MongoDB* | ⓞ ↗

– Created a responsive chat app with real-time messaging via Daisy UI.
– Added chat history, user search, and block/unblock features for safe communication.

Education
